Dorm Security to be Improved

BY PEGGY MORSE

The new security system for the residence halls will be in operation after spring break, according to Director of Residence Life Laurie Thomas.

The system was originally scheduled to be installed over Christmas break but has been delayed due to contracting difficulties.

The system is being purchased from Armored Electronic Security,

Inc., a Cincinnati company. Thomas explained that just before Xavier signed a contract with them, the company received a large contract from General Electric, which delayed installation at Xavier.

Another unexpected delay was the necessity of contracting with the phone company before installation can begin.

A system of check in/out will be in place between 8 p.m. and 7 a.m.

There will be a desk in each residence hall staffed by students from 8 p.m.-midnight and by graduate students or outside people from midnight-7 a.m.

Residence hall students will receive a sticker for their ID's color coded to indicate the building in which they live. Upon entering and exiting the residence halls, they will sign in and out.

Commuter students visiting the

residence halls will be required to call up on the phone to have the person they are visiting come down. Commuter visitors will also show their ID's and sign in and out.

A picture ID will be required of all other visitors. After being received by the person they are visiting and signing in, they will receive visitor's passes to show that they have been approved to be in the building.

"The system will basically be providing a doorman," Thomas said. "We want to make sure uninvited people don't come in and that those who do come in belong."

Thomas pointed out that having this type of system will be helpful to security in case of assault by providing a list of who is approved to be in the building. Guests will be protected from being stopped if they should happen to meet the description of the suspect.

"If we ever needed to evacuate the building, we would know who to look for," Thomas added.

Because of the expense of staffing security desks in the dorms, there will only be one location in each building. In Kuhlman Hall, where the entrances are on different levels, only the front door will be used.

Thomas explained that negotiations are still going on in regard to whether the back door of Kuhlman will be locked after 8 p.m.

"I need documentation as to how safe it is to have students walking around the building," she said.

After 3 a.m., second locks will go into place, and there will be one person on duty in the University Center to let people into the residence halls.

Thomas would like to receive feedback from the students on the system. She encourages them to submit their reactions to her in writing.

The Rev. Charles L. Currie, S.J. poses with Cupid to wish the Xavier community a Happy Valentine's Day. Cupid was on campus Monday as part of the Bookstore's celebration of Valentine Week.

King Proposes Free Parking

BY JOSEPH WINHUSEN

Question: for thirty dollars a school year, how many extra steps would you be willing to walk each day from car to class? If Brendan King's proposal passes at the next meeting of the Space Committee, you may be asking yourself this very question next fall.

Because of the present "parking crunch" in the North and Brockman lots, Brendan King, chairman of the Student Representatives to University Committees, has proposed that free parking stickers for the Cohen Center lots be offered to students on a first come, first served basis in the fall of 1985.

These stickers would, King expects, be offered along with the usual "premium price," thirty-dollar parking passes for those who would still prefer the proximity of the North lot to dorm and class.

According to Xavier News count, the back lot of Cohen is 240 steps further from the corner of Herald and Ledgewood than the North lot "pit." This adds up to an additional 480 steps or four minutes, 14 seconds travel time to and from class each day.

But need these steps be walked? The Space Committee will be considering the idea of a shuttle service which, as King proposed, might simply consist of an extra stop of the Edgecliff shuttle.

This would clear the area in front of the University Center and give Cohen parkers a warm and safe place to wait, King said.

According to King, not only would free parking at the Cohen Center make students happy, it would alleviate some problems nagging the administration.

Due to the present "parking crunch," prospective students find parking a problem, and are thus left with an initial distasteful interlude.

Under the King plan, the Brockman lot would be open principally to visitors and the handicapped because many students would park in Cohen and many faculty and staff members would park in the North lot.

The faculty and staff are envied elements of the administration's second problem; student complaints over the faculty's privilege of free parking passes, said King. Under the King proposal, all will have the option of parking for free.

Finally, the administration can for the present table the expensive proposition of paving the stadium. Xavier's already existing parking resources will be put to their most effective use, said King.

Cohen, with its 300 car capacity, will have room for all who wish to park.

Jury Rules Guilty in Mock DUI Trial

BY MARIANNE DUMBACHER

An eight-member jury at last Thursday's mock trial found Mr. Mark M. Lawless guilty of driving under the influence. The Honorable Judge J. Rosen charged Lawless with a three-day jail sentence.

The jury found Lawless not guilty of the charges of failure to comply with the order of a police officer and failure to stop after an accident.

The charge for resisting arrest was dismissed during the trial when the prosecution failed to produce grounds for the charge.

The D.U.I. trial performance casted members of the Student Senate as jurors, with Rosen presiding and attorneys R. Scott Crosswell and Terry Gains serving as defense and prosecution respectively. Steve Koenig (senior) acted as Lawless and

students Bridget MacMillian and Mary Kelly testified as witnesses to the alleged crime.

The trial proved both informative and amusing.

Rosen instructed those in the courtroom on standard procedures governing trials on charges such as D.U.I.

According to Rosen, "A standard

News Briefs

Opportunities for Minorities
Saturday, Feb. 16, an Employment Opportunities for Minorities program will be held in the Terrace Room of the University Center from 9 am to 12 noon and from 1 to 4 pm.

Dr. Gordon Adams
Monday, Feb. 18, Dr. Gordon Adams, author of *The Politics of Defense Contracting: The Iron Triangle*, will speak on economic conversion from excessive defense spending to consumer products and the effects of our present level of military spending on the economy. The talk will be given at 7:30 pm in the University Center Theater. The cost is \$3 for adults, \$2 for students and no charge for XU students with I.D.'s and for XU faculty.

Dr. Gar Alperovitz
Wednesday, Feb. 20, Dr. Gar Alperovitz, author of *Rebuilding America*, will give a response to the First Draft of the U.S. Bishops' Pastoral on the Economy at 7:30 pm in the University Center Theatre.

Interview Workshop

Thursday, Feb. 21, Career Planning and Placement will conduct a program titled "Second Interviews" on strategies for office/plant visits at 5:30 pm in the OKI Room.

Mock Interviews

Career Planning and Placement is offering videotaping of mock interviews in the CP&P office Monday through Friday by appointment, 8:30 am to 3:30 pm.

Graduate School Guide

Copies of the 1985 Graduate School Guide can be obtained in the Career Planning and Placement office.

Health and Counseling Center

The Health and Counseling Center is open for both commuter and resident students Monday through Friday for medical assistance or counseling from 8:30 am

to 5 pm. A doctor is in the Center daily from 10 am to noon. Dr. Marihelen Dooley (Gynecologist) is in the Center on Tuesdays; Dr. Konerman (Internist) on the other days.

Spring Elections

There are currently openings on the Election Board for representatives from the freshman, sophomore and senior classes. Interested students should pick up an application in the S.G.A. office or call 745-3560.

Paul L. O'Connor, S.J. Scholarship

The deadline for application for the Paul L. O'Connor, S.J. Scholarship is Wednesday, March 6. The scholarship is awarded annually to a full time undergraduate day student in the junior year at Xavier to cover the cost of tuition for the recipient's senior year. Applications are made only through the academic departments. Application forms are available from departmental chairs or from the chair of the Scholarship Committee in Alter 124.

SAC Open Jam

The SAC Open Jam, originally scheduled for tonight, has been postponed until Feb. 26.

Dependable Student Sought

The Admissions Office is looking for a dependable student to coordinate all campus tours, class visits, etc. The student will also be responsible for conducting three student-run telephone campaigns in the spring, as well as assisting with any special admissions projects involving student volunteers. The position is part-time, 20 hours per week @\$3.35, becoming full time in the summer. Those interested should submit a cover letter, resume and the names of three references to Mr. Rene Durand, Dean of Admissions and Financial Aid, Buschmann Hall, by Friday, Feb. 22.

Diverse Activities Planned for Li'l Sibs Weekend

BY GRACE PLEMMONS

During the weekend of Feb. 22-24, Xavier University will host Li'l Sibs weekend. The event is sponsored by SAC.

According to Laura Magner, who is chairing the event with Pat Nugent and Liz Costello, many activities are planned, including a pizza party Friday night and a carnival Saturday which includes break dancers and various other activities.

Also scheduled for Saturday is an

ice cream party and bowling at Stone's Lanes. A magician will perform Saturday night. And movies are planned for both nights.

The weekend is open to any age group.

The cost for those who will be staying in the dorms is \$30.00. That includes admission to all activities and dinner Friday, brunch and dinner Saturday, and brunch Sunday.

For siblings of commuters the cost

is \$15.00, which includes admissions to all activities.

Those who are already pre-registered will officially register on Feb. 22, 3-6 p.m. at which time they will receive information packets that will have detailed information about exactly when and where the various events will be held.

Pre-registration closed Feb. 8, but any inquiries can be directed to Laura Magner, Pat Nugent or Liz Costello in the SAC office.

SGA Senate Approves Funds for Herald Avenue Bus Shelter

BY KAREN VENNEMEYER

The S.G.A. Senate has unanimously voted to direct funds toward a Route #51 bus shelter to serve two stops at University Drive and Herald Avenue.

The total cost of the project is estimated at \$4,125. Senate allocated \$2,075 to Commuter Council for the project. According to Stephen R. Gregg, vice-president of Commuter Council and chair of the Metro Com-

mittee, the other half of the cost will be paid by Xavier Administration funds.

"Queen City Metro calculated that 140 students could be using the bus shelter," said Gregg. These lighted shelters would be "particularly useful in times of bad weather," said Gregg, and therefore a worthwhile project to aid commuters.

Before the shelter can be made, a

permit from the city of Cincinnati must be obtained.

According to Gregg, "It will only take a day or two to construct," but because of the time it takes to get a permit, the shelter probably will not be completed until April.

"I would like to personally thank all those who have given their time on this project," said Gregg of the students who have collaborated to begin this project.

Motion I: \$200 for Ken & Sharon Myrnes, singing duo (date unknown)
Motion II: Establish an Ad Hoc Committee to be named later to promote positive behavior in Residence Halls (Committee was later named "Positive Residence Life")

Correction Notice

To clarify a point in last week's article "New Senator Appointed" which appeared on page 2: Timothy O'Brien had the same chance as all other 19 candidates for the Senate position.

However, the committee which chose the five from 19 did not meet until Wednesday night, as stipulated on the application. The application for the seat stipulated both when the committee would review the applications and that if chosen, the applicant must at-

tend the Thursday, Jan. 31 Senate meeting.

O'Brien left for Washington D.C. with Bridget MacMillan at 11 am Wednesday, Jan. 30 and could not have been notified by the committee.

According to SGA Legislative Vice-President Don Travis, in order for O'Brien to be eligible for the seat, he should have either foregone the trip or discussed the possibility of postponing the Senate address with the committee.

BMX Raises Needed Budget Process in Motion Funds for Xavier

BY PAT HOGAN

Business Mobilized for Xavier (B.M.X.) is a financial campaign directed toward the business community and has been very successful in the past, according to Steve Kuhn, Director of Development. Its official beginning was on Jan. 16 and to date it has raised over \$5 million.

Last year \$406,661 was collected. B.M.X. is in fact one of the largest fund campaigns of the University, said Kuhn.

The overall goal of the Fund Campaign this year is \$964,000, according to Kuhn. Of this goal, \$435,000 is expected to be raised from B.M.X.

The money donated by the corporate community goes toward keeping tuition expenses down. According to David R. Huhn, a 1959 Xavier graduate who is chairman of B.M.X., 30% of the total educational cost for each student is paid by corporate, alumni and parent donations.

B.M.X. is believed to be "the most important weapon this university has in meeting today's financial challenges," said Huhn.

The money goes to a variety of programs and departments of the university, said Kuhn.

Scholarships, library books, maintenance equipment and faculty salaries are just a few of the things which are financed by the B.M.X. campaign.

The Cincinnati business community plays a very large role in B.M.X., not only through generous gifts of money but also in time, said Kuhn.

Many of the corporate executives of the Cincinnati area sit on the B.M.X. committee, said Kuhn. Thomas Cody, senior vice-president of Federated Department Stores, and Dwight H. Hibbard, Chairman and Chief Executive Officer of Cincinnati Bell, are just two of the many business people involved in B.M.X.

BY KATIE HUNTER

The 1985-86 budget will be finalized by March 11, according to the Rev. Charles Currie, S.J., President of Xavier University. The budget process was started late this year so that the information would be "much more timely," said Currie.

The budget is usually done in December.

The process begins when budget requests from all of the departments at Xavier are compiled and presented to the Budget Committee.

"The Budget Committee is composed of faculty, administrators, and

students," said Currie. The 1985-86 budget is still being discussed in the committee.

The Budget Committee is responsible for matching revenues and expenses to maintain a balanced budget.

Tuition, room and board will definitely go up, said Currie. But he stressed that the committee is "trying to keep Xavier as affordable as possible."

Currie said that the primary focus in determining where funds will go is the needs of the academic departments. After academics come the

residence halls, athletics and other improvements on campus.

Xavier also faces the "long-term debts which every university has on buildings and purchases," said Currie. Seven million dollars are owed for Edgecliff, for instance. Xavier has low-interest loans to cover these debts, said Currie.

Once the committee reaches an agreement on the budget, their recommendation will go to Currie and then to the Board of Trustees on March 11. The trustees will then decide on the final budget.

Greyhound gives the Musketeers a break on Spring Break.

Round trip. Anywhere Greyhound goes.

This spring break, if you and your friends are thinking about heading to the slopes, the beach or just home for a visit, Greyhound can take you there. For only \$99 or less, round trip.

Starting February 15, all you do is show us your college student I.D. card when you purchase your ticket. Your ticket will then be good for travel for

15 days from the date of purchase.

So this spring break, get a real break. Go anywhere Greyhound goes for \$99 or less.

For more information, call Greyhound.

Must present a valid college student I.D. card upon purchase. No other discounts apply. Tickets are nontransferable and good for travel on Greyhound Lines, Inc., and other participating carriers. Certain restrictions apply. Offer effective 2-15-85. Offer limited. Not valid in Canada.

GO GREYHOUND
And leave the driving to us.

DUI Trial

cont. from p. 1

trial in municipal court is one day" unless many witnesses testify. The jury reaches its verdict on the same day as the trial, Rosen said.

Rosen treated the jury much the same way he would in a normal trial. He explained that jurors must find the defendant guilty beyond a reasonable doubt and that the Ohio statute on reasonable doubt must be read to jurors before they reach a verdict.

Witness Bridget MacMillan gave Thursday's trial a humorous touch.

The prosecution established that Officer Awad knows when someone is intoxicated, because of previous experience with "at least 50" intoxicated people.

Then, prosecuting attorney Gains wanted to know how defense witness MacMillan knew whether Lawless was intoxicated that day, if she had never seen him drunk. She answered that she, too had had experience with intoxicated people. To the question of how many and where, she replied "at least fifty" just by living on Xavier's campus.

Support Committees

BY BRENDAN KING

Guest Columnist

One of the most influential divisions of Student Government is clearly the University Committees. Comprised of students, faculty, and administration, the University Committees recommend policy decision-making ideas in the following areas:

- Admissions and Financial Aid
- Athletics
- Awards, Convocation & Commencement
- Budget Review
- Discipline
- Edgecliff Campus
- Fine & Performing Arts
- Library
- Space and Renovation
- Student Publications
- Undergraduate Studies

Within these Committees, there are over thirty student representatives working to insure that the students' rights and interests are maintained, and that the prevailing issues and concerns of the student body are met.

In the next several weeks, numerous proposals will be presented to various committees by the student representatives on behalf of the student body. A lot of time and research will have gone into these proposals to help maintain the best interest of the students. One such example is the incentive for students who park at the Cohen Center by offering reduced or free parking stickers. Another is to maintain the student parking lot at Edgecliff to 9:00 p.m., instead of the present 5:00 p.m.

University Committees have come a long way from years ago when the students' view was not heard nor considered. But today, though there is still room for improvement, University Committees are by far one of the most influential divisions within the Student Government Association.

GUY AVERAGE AVERAGE GUY

Moll maligned

Who is Doug Moll to declare that: "The volleyball education major who is content with a 2.0 average will obviously feel little stress?" As volleyball players, we have firsthand knowledge of what it takes for a student athlete to maintain satisfactory performance on the court and in the classroom.

An athlete, like any other student, must live up to his/her own standards, in addition to those of the NCAA and the coaching staff. To set the record straight, the volleyball team collectively had a GPA of 3.0 this past fall and, at the same time, won the North Star Conference.

Xavier's athletic department offers no full athletic grants-in-aid for volleyball players; therefore the main motivation to attend XU is for a quality education despite the expense. Several players are on academic scholarship and therefore must maintain a 3.25, and many players must work their way through school (let's talk about stress). Members of other teams are equally conscientious about their educations, particularly those in sports which don't offer the possibility of professional careers.

We do not deny that some athletes choose to attend college so they can participate in their sport in an effort to build a career out of it. But even these athletes are constantly reminded that there are no guarantees

and that sports careers, if attained, are often short-lived; hence, they must educate themselves just like anyone else.

Lest Mr. Moll feel we've missed the major thrust of his article: regarding his criteria for a worthwhile course, the core curriculum of a liberal arts college is designed to provide a well rounded education that makes an individual more knowledgeable, more flexible, and as recent research has shown, often more employable. Thus, these courses which Mr. Moll considers a waste of time and energy do have the potential to help the student grow as an individual and in a career if the student is wise enough to recognize this and take advantage of it.

Considering his viewpoint on the issue of liberal arts, and being aware of Xavier's reputation as a fine liberal arts university, we fail to see why Doug Moll didn't opt to attend a school such as UC, which does not require what he considers to be useless classes (such as philosophy) to graduate. Furthermore, we will be the first ones to agree that sometimes grades are not indicative of what has been learned, but as of yet, no one, including Mr. Moll, has devised a better measurement for quality. Until he does so, he should refrain from unjustly attacking the University and its athletes and keep his ignorance to himself.

Colleen Seithel
Libby Carnes

Away with archaic metaphysics

BY MIKE CHASE

You know you're in trouble when the class starts out with the teacher saying that it's really not worthless, like some people contend. And then when one of the reasons that it is not considered worthless is that it is knowledge for knowledge's own sake, you have to start wondering why you were required to take the class.

The course I am discussing is Metaphysics, an Area II philosophy course. All undergraduate students at Xavier must take a philosophy course in each of four areas. This current semester only three Area II philosophy classes were offered: Metaphysics, Perspectives on Reality, and Transcendental Metaphysics. Just the name Transcendental Metaphysics scares off most students — they could call it Harder and Tougher Metaphysics and achieve the same effect. And if a student's schedule won't let him into the Perspectives on Reality class, the Metaphysics class becomes the only Area II philosophy class that he can take. It's a requirement by default.

Metaphysics isn't what I think of when I think of philosophy. In the modern world, "philosophy" has a very different meaning than it used to have. Today it either means the way you treat a certain subject (a philosophy of coaching, for example) or thoughts on people and their interactions. Examples of this are "an eye for an eye," "turn the other

check," or "take what you can get." But in ancient times, there was a branch of philosophy now called "natural philosophy." The American Heritage Dictionary (college edition — the cheap paperback one) explains it as "Archaic — the investigation of natural phenomena."

Back in the days of the ancient Greeks such as Aristotle, metaphysics was their way of understanding the universe. It answered questions like "What is change?" and "What causes a rock to fall to the ground?" The key reason I dislike metaphysics is that it still teaches us these same beliefs as fact. The course is outdated as an explanation of the universe. We have science to explain things to us today. We have atoms and molecules — we don't need primary matter. People back then didn't know about things that today we take for granted. It's easy to believe in primary matter when you also believe in spontaneous generation, and that the gods will be angry if such and such does not happen.

If the course were taught as a history of philosophy course, or if the parts that are better explained by science were dropped, the course would have merit. But it is taught as though it is fact. When a calculus teacher tells me that there's a reason for something said in class, but that it is explained in higher-level courses, I believe him. Philosophy

can't be taught in the same way. Each premise must be made clear or else the understanding of the class is lessened.

Because of the way the class was taught, most students didn't understand it at all. Students who have taken the class before didn't understand it. One graduate student I talked to said that she treated the subject as foreign language — she just memorized the notes and tried to spit them back out. She said she didn't expect or try to make any sense out of the subject. I very well remember a speaker at Manresa when I was a freshman. One of my first experiences at Xavier was a man who got an A in metaphysics talking about how he didn't understand any of it.

Now, I actually did learn something in metaphysics class. A simple premise that evil is the deprivation of good. This is the only thing that I can remember from the class that makes sense. Notice how it has nothing to do with physics or natural philosophy — good and evil are still considered philosophical topics today. If the class can't stick to philosophical topics, though, I think it should be dropped as a requirement at Xavier. To learn archaic ideas as fact that is true today is a waste of time and effort that could be better put to use on a more pertinent, up-to-date subject.

Men's B-ball team downs St. Louis, Evansville

BY MIKE CHASE

They spoke of building up momentum, and getting hot down the stretch. To prove what they were saying the Musketeers went through Saint Louis and Evansville in conference games last week like a roller coaster goes through "Foamy" shaving cream. They definitely picked up some momentum.

The Muskies beat Saint Louis 72-53 on Saturday night, and similarly dispatched Evansville 83-63 on Monday. The victories were the result of some of the best defense and some of the best passes that the Muskies have produced all year.

Saturday, Xavier won after coming back from a 10-4 deficit. They caught up and took a lead at 14-13, and never trailed again in the game.

By halftime they were up 33-24.

Despite the uncompetitive score of the game, there was some good solid basketball played and some good old-fashioned showing off. Sharp passes by Ralph Lee, fancy outside shots by St. Louis' Luther Burden, and a few slams and alley-oops by both teams spiced up the game.

Richie Harris and Eddie Johnson led the Musketeers in scoring with 16 points each, while Andy Donnelly pulled down eight rebounds to lead the team. Byron Larkin and Walt McBride added 12 points each to the win, while only Luther Burden scored in double figures for St. Louis.

The team was proud of their victory. Richie Harris called it the team's best game of the year.

Monday night's game against Evansville's Purple Aces was also an entertaining game, despite the score. Ralph Lee was in top form in leading the team, picking up eight assists.

Byron Larkin, the only starter still playing by the end of the game, scored 22 points for Xavier. Walt McBride had 18 and also pulled down six rebounds. He displayed some hustle and good inside moves during the game.

Andy Donnelly commented, "Ralph has had two great games now. It seems every pass he makes is the right one."

Lee was not so willing to take all the credit for the assists. "The guys got out on the break. That was the big difference. They get open in those areas and I get the ball to them, and they put it in."

The game was tied at 28 with less than two minutes to play in the first half when Xavier was able to score six unanswered points and take in a six-point lead to halftime. After the half, though, the Musketeers just exploded with baskets, getting up 44-30 in just four minutes. After this it was never close again.

Ralph Lee said that the offense's success came from the team's defense. "It's our defense that's really making our offense work." The team is able to get advantages and create fast break situations with steals and key rebounds.

Coach Bob Staak said the team has worked on defense lately, and attributed the recent success of the defense to having gone back to the basics in practice.

After the team was up by 20 and the game was getting dull, the crowd began to chant, "We want Brad." They were calling for Brad Noble, Xavier's tallest player who despite his slight playing time is a fan favorite. Coach Staak answered the chants by putting in the whole bench, leaving in only Byron Larkin, a freshman.

After the game, Staak said he was pleased with the defense of the substitutes, who played for over three minutes. But the offense couldn't compare to the finely-tuned first team on such a hot night.

The team played Marquette at Marquette Wednesday Feb. 13 and plays Oral Roberts and Oklahoma City on Saturday and Monday respectively.

Xavier's Walter MacBride (33) leaps for a shot during last Saturday's game against St. Louis at the Gardens.

XU takes 1st in rifle

BY JOHN MASTANDREA

The Intercollegiate Sectionals are National Rifle Association registered matches which serve as a national ranking for collegiate teams and is the qualifying matches for invitation to the NCAA Rifle Championships. Thus far in the match, the air-rifle competition has been completed and XU has taken first place out of six teams. Final results in the small-bore competition will not be determined until next weekend.

In the air-rifle segment, the Musketeers shot a new team record of 1,449. Wendy Swigart tied her personal best with 378. Regis Blahut shot his personal best with 357, and Chuck Kelly tied his personal best with 356.

In taking first place, Xavier edged out rivals University of Kentucky, Ohio State University, and Lake Su-

perior State College. Rose Hulman was the other participating in the air-rifle competition.

The top eight teams and the top 40 individuals from these sectional matches will go to the NCAA Rifle Championships, which will be held at the U.S. Military Academy, West Point, NY, on March 7-9. Coach Alan Joseph is hopeful and optimistic that his team's scores will be enough to get them there. Especially pleasing to the coach is the achievement of freshman Wendy Swigart who, by firing 378 in air-rifle, has topped last year's cutoff score of 375, making Coach Joseph even more optimistic that she will make it in this year's top 40 individuals in the air-rifle.

INTRAMURALS

BY LEANN STEINEMAN & ANN BRIAN

Floor Hockey

Team Beam 7

Team Strawberry 1

Team Beam really came out to play this week, giving them their first win this season. Led by John Brault with 5 goals and good team effort by Art Knott with 4 assists, they handed a loss to Team Strawberry 7-1. Scoring the lone goal for the Strawberrys was Vinnie Carren, as Sherry Schloemer played fine defense.

Tuna Boat 5

Brock Hawks 4

This game was competitive from the very start. Both teams had an excellent passing attack and utilized their quick style of play. The end of regulation saw the game tied at 4, but Jack Flynn scored his 3rd goal of the game to notch the win for Tuna Boat.

Bruins 1

Mother P. O.

A close contested game with the difference of Tim Hess' goal in the last two minutes sealing the game. Good aggressive play and fine goal tending were also evident.

GHA's 6

Broad St. Bullies 0

Underdogs 6

Victory or Death 1

Psychotic Mutants 4

Ice Stooges 3

Ice Stooges led until late in the 3rd period when Tim Dwyer made his third goal to tie the game for the Mutants. In overtime, a scramble at the Stooges ended in another goal by Dwyer and a win for the Mutants.

Queefers 4

Skoal Bandits 3

Queefers came from behind in the third period and took the lead for good on a goal by Mahoney. Dan Quinn, Vinnie Noce and Bill Carroll were outstanding players in this game which saw no penalties.

Elks 9

Return of the Hosemonsters 0

It was all Elks through the entire game. Hosemonsters weren't even close and were plagued with roughing penalties as a result.

Bowling

Godfathers 2

Strikers 1

Victory or Death 2

Rush-ans 1

Basketball

Men's 6 ft. & Under

Monday

Stroh's Army 47 vs. Allied Forces 46

Allied Forces came from behind in the first half to take a 4 point lead of 22-18.

Stroh's Army fought back in the second half and tied it up at 46-46 with 43 seconds to go. A missed shot by each team sent the game into overtime.

With 16 seconds left in overtime Joe Dallas fouled Bill Shulte. Shulte connected with the first and that was all they needed.

High scorer for Allied Forces was Nick Gates with 12 points, and for Stroh's Army Mike Ertle and Bill Shulte each with 17 points.

Too Good For Fallar 85 vs. Almost Cav's 32

Skle 61 vs. OFF 29

Thursday

Oscar Tangos 65 vs. Flying Dories 42

The Tangos took an early lead and never looked back in this contest. The Dories fought back late in the first half to cut the Tangos lead to 6 at half time. It was all Tangos in the second half giving them a win by 23 points.

High Scorers were Bill Owen for the Dories with 20, and Tim Dwyer led the Tangos balanced attack with 13 points.

Underdogs 83 vs. Showtime II 49

Moth 63 vs. Ed's Idiots 29

In Like Flynt 67 vs. Team Beam 44

Men's Open

Tuesday

Moth vs. Game Cocks forfeit

Team Stroh's 74 vs. Kals 48

Spartans 64 vs. Franchise 52

Outstanding field shots from Carl Allison and D. Riesenburg of Spartans with 16 points, and good pressuring defense along with skilled offensive shooting helped the Spartans on their way to a 64-52 win.

FIBIFU 47 vs. Showtime I 38

Wednesday

Bad Habit 66 vs. BAMFS 63

The young BAMFS surprised Bad Habit, coming away with a 2 point lead at the half. Bad Habit came back tough, led by Tom Kuhl with 22 points.

Doug Cron had 19 points for BAMFS, but he couldn't carry the team past the more experienced Bad Habit.

Hot Shots 69 vs. Underdogs 65

The Hotshots pulled off a victory over the Underdogs in the last few seconds remaining. High scorer for Hotshots was Tim Fromeyer with 19 points. The Underdogs high scorer was Trevor Hodge with 19 points.

Ethical Mutants 49 vs. Quaffers 39

US 41 vs. M-Bombers 34

Thursday

No Respect 73 vs. Muldoons 53

In Like Flynt 98 vs. Revenging Nerds 52

This was a very fast paced game. ILF is a great passing team. Everyone on the team got to shoot. Bill Carroll had a few well timed steals to help expand the lead in the first half.

High scorers for ILF were Pete Sherman with 28 points and Phil McHugh with 21.

Women's

190 Proof 46 vs. Family Ties 26

The volleyball team (190 Proof) extended their volleyball talent into stunning basketball skills.

High scorers of 190 Proof was Patty Bryn with 14 points and Libby Carnes with 11. Mary Kennedy was high scorer of Family Ties with 10 points.

Double Shots 51 vs. 2-West Wonders 22

Co-Rec

7&7 76 vs. Hermans & Hermans 45

Sicos 46 vs. In Yo Face 35

Sicos jumped out to an early lead and In Yo Face could not come back. George Kucik scored 12 from the free throw line. Dave Glaser scored 12 for In Yo Face. As for the women, Patty Bruns scored 7 and Sue Horn had 6 for Face ladies.

Boxing Club starts

Xavier's boxing club opens up its 1985 season this Friday in the Xavier Armory against Miami University, Ohio University and Notre Dame may also bring teams to the event. There should be at least 12 matches on the card.

This will not be a dual meet between Xavier and Miami because both Xavier and Miami have more than one boxer in some weight divisions and in dual meets each team is allowed only one person in each weight class. It will instead be a series of individual bouts, and this format allows the addition of fighters from Ohio University and Notre Dame.

Featured fighters for Xavier will be senior captain Tom LoCasio, sophomore Pat Burhenne, and sophomore Mike Chase, last year's Mid-western Regional runner-up in the 139 lbs weight class.

The Xavier team features a number of freshmen this year. "They're surprisingly good. They're coming along really well for their lack of experience, and they can hold their own," said LoCasio.

The team is coached by Rollie Schwartz, former U.S. Olympic coach, and generally the team fights a very crisp, international style. "In amateur boxing, it doesn't matter how hard you hit the opponent. Each hit counts as one point and so does a knock-down. So we fight a sharp defensive way and we make our punches count," said Schwartz.

In professional boxing, scoring is often on which fighter hurt the other fighter more during the round or which fighter controlled the fight more completely. "We are very different from professional boxing," said LoCasio.

Currents

THE SILVER SCREEN

If you spend a lot of time eating popcorn in a dark room with an assortment of noisy individuals you're in for some pleasant evenings just ahead. Several major studios are planning releases with college audiences directly in the target sights. Here's just a small sample of what will be coming to the local theaters soon:

Into the Night, an action-adventure, stars Michelle Pfeiffer and Jeff Goldblum, but the real

Top: David Bowie as an English assassin and Below: Jeff Goldblum and Michelle Pfeiffer share a bizarre and deadly adventure in *Into the Night*.

story is in the supporting cast which includes Dan Akroyd and David Bowie.

1984 premieres in Cincinnati in mid-February. Based on Orwell's novel, it features John Hurt and Richard Burton in his last movie role. Additionally, the score is done by the Eurythmics.

The Mean Season also premieres in mid-February. It's an Orion pictures release starring Kurt Russell and Mariel Hemingway.

THE LIGHTED STAGE

If you prefer your theater live, it would be well worth your time to check out the Cincinnati Playhouse in the Park. The Playhouse has recently completed a new \$25,000 dollar stage (thanks to the generosity of Procter & Gamble), which will permit the staging of multi-scene plays, such as *Amadeus*. The stage is a revolving one and is currently being used for the staging of *Amateurs*.

If you are interested in checking out the fine acting that will be going on on the new stage, give the Playhouse a call at 421-5440.

THE MUSICAL BOX

A note from the Cincinnati Symphony Orchestra on a great way to spend a morning with a younger sibling: On Saturday, March 9th at 10:30 a.m. there will be a "Lollipop Family Concert" at Music Hall. The concert is aimed at children, and there will be a puppet show, but don't let that put you off. The Orchestra will perform a selection of the scores of various popular movies, and some other things aimed at the younger section of the audience, but there will be a lot of fun for the adults in the audience. It's only three dollars for adults, two for children, so take someone young. It'll do your heart some good. For more information call 621-1919.

AN OPERATIC NOTE

The Cincinnati Opera has announced its season line up of works and artists who will be performing at Music Hall this summer, and if you are interested in that sort of thing, now would be an excellent time to pick up tickets for the works you would like to attend. The schedule for 1985 includes *Faust* July 26 and 29, *The Gondoliers* by Gilbert and Sullivan, July 5th and 6th, and *Aida*, November 13 and 15. So, while it is truthfully said that it ain't over till the fat lady sings, it should be noted that the good seats go to the first ones in line. All performances are at 8 p.m. at Music Hall. For ticket and other information, please call 241-2742.

On the Fringe

BY JOHN TYMOSKI
AND BRIAN STAPLETON

Jockey Club

Thursday, February 21 will find the Angelic Upstarts at the Newport Jockey Club. This English band plays a form of working class punk called Oi music, and promises to be an exciting show. Also at the Club, on February 14, DeCroissant will perform for the annual Valentine's Show. On the horizon, Exploited and U.K. Sub.

Cory's

Currently in the first phases of expansion, Cory's, at the corner of McMillan and Vine, is evolving into

a premier jazz club. Tuesdays feature Big Ed Thompson and H. Bomb Ferguson playing rhythm and blues. Wednesdays, Cal Collins and Lyn Seaton will perform. Cal Collins is a sensation in his own right, and Lyn Seaton, on leave from the Woody Herman Orchestra, promises to bring exceptional jazz entertainment to Cincinnati. Thursday through Saturday, the Jimmy McGary Quartet performs.

Metro

At the Metro this week: Danse Macabre on Feb. 15, and Near Paris on the 16th. Tuesday night is College Night and features Red Math.

Admission is free with your college ID. Remember to bring two ID's if you are under 21.

The Central American Task Force

The Central American Task Force will sponsor a lecture by Junita Jenkins on Feb. 19th at the Mount Auburn Presbyterian Church, located at 103 Wm. Howard Taft. The lecture, which begins at 7:30, is entitled "Women and Health Care in Nicaragua From A Black Perspective."

On the horizon, in March there will be a memorial service for Archbishop Romero, and a National Demonstration in Washington in late April.

Fringe Interview: The Raisins

For more than five years now, the Raisins have been an important, if not dominant, influence on the local music scene in Cincinnati. Playing original material only, the Raisins incorporate a wide variety of styles and influences into their work; each song represents the work of talented, original, and extremely polished professionals.

Although the band has been through a number of lineups since its origin, the present one — Rich Neihsel, (keyboards), Bam Powell (drums), Bob Hyswonger (bass), and Rob Feters (guitar) — is the longest lasting and the most successful. Releasing their first album two years ago (produced by guitarist extraordinaire Adrian Belew), the Raisins found a hit in "Fear is Never Boring," and firmly established themselves as the number one band in Cincinnati.

In the premiere of a series of interviews with local musicians, the Fringe spoke with Rob Feters about his feelings towards their first album, Cincinnati, musical influences, and working with Adrian Belew.

Fringe: How would you describe your

music?

Feters: American pop. I think we're a rock and roll band, we're not "sissy pop" (see Duran Duran).

Fringe: Who would you cite as your primary musical influences?

Feters: There are a lot. Not too many classical influences, but if I had to name a few... songwriters like Randy Newman, guitar players like Todd Rundgren, bands like NRBQ. I like their stances. Cool.

Fringe: Are you happy with what you've done in Cincinnati?

Feters: The fact that we've just been able to stay together, to me, is just a miracle, because we don't have a record deal. It's great that we've been able to play enough gigs so that we can stay together and keep our families together.

Fringe: You guys are working pretty much then?

Feters: Yeah, and I feel lucky for it.

Fringe: Are you happy with your first album?

Feters: Now that its two years later some of it stands up to me and some of it I would like to record again. Maybe not re-record, but spend more

time in the mixing and production end of things. We recorded the whole thing really fast, in nine days. We really didn't have a whole lot of money to work with, so we basically played the whole thing live in the studio and did very few overdubs.

Fringe: How did your association with Adrian Belew come about?

Feters: Many years ago, we were playing in Nashville, and Adrian was living there, with his wife-to-be, and he used to always come see us play. Over the years we've done demo work with him, and, if course, the album. He's always been one of our strongest supporters.

Fringe: Do you feel your association with him has been beneficial?

Feters: It hasn't gotten us a record deal, but yeah, its been good. I mean he's one of the world's great guitar players and it can't hurt to work with people like that. He doesn't force anything on us in the studio. Although in our future work with him, he's gonna be a little more involved.

Fringe: So you plan on working with him again?

Feters: Oh yes. Definitely.

Pop Replacement

Once isolated and unknown, Minneapolis, MN is quickly becoming a prime moving force in the music industry. The meteoric rise of such acts as Prince emanating from the Twin Cities have led to a sprinkling of record contracts for artists recording in other genres. Some of these acts include the pop-soul sounds of Sheila E., the hardcore sounds of Hüsker Dü, and, more recently, the American rock/post-hardcore sound of The Replacements.

The most recent Replacements album, *Let It Be*, shows the band's ability to perform diverse material. Moving back and forth from ballad to hardcore, The Replacements display a truly American sound somewhat similar to REM. But make no mistake, The Replacements are no Xerox band — their own distinctive

sounds surface throughout *Let It Be*.

There are many ballads on *Let It Be*, yet even these retain a sense of biting cynicism and irony — songs such as "Androgynous," "Black Diamond," "Unsatisfied," and "Sixteen Blue." "Favorite Thing" and "We're Comin' Out" display tight energetic hardcore. "I Will Dare" is an enticing popish tune which is receiving a respectable share of airtime — with good reason. *Let It Be* is a powerful and compelling album which offers something for everyone.

The Replacements — Paul Westerberg, *Rhythm Guitar*
Bob Stinson, *Lead Guitar*
Tommy Stinson, *Bass*
Chris Mars, *Drums*

On a scale of 0 to 5, *XU News* rates *Let It Be* a 5.

Holl Position

BY SCOOTER RINGSWALD

I'm afraid this week the staff was forced to ask some fairly relevant questions. I realize this will be quite a shock to most of our readers. So I thought I'd warn you before you read any further.

The staff asked how often you picked up the *XU News*. A discouraging 42% said they read the paper every week (for you non-math majors, that's less than half). 13% said they read the paper every other week. 23% read it once a month, and a disheartening 7% never even looked at it.

Of those that did read the *XU News*, their opinion of it wasn't

terribly encouraging. We based their rating on a scale from 1 to 10 with 10 being the highest score. Only 10% felt that the school newspaper was excellent. 6% gave it a rating of 9. 11% felt it deserved an 8. 16% gave it a 7. 25% a 6. 15% a 5. 7% a 4. 4% a 3 and a 1, and 2% went for a 2.

The last question of this week's poll turned out to be a very closely divided issue. We asked 228 students of their general opinion of Alcohol Awareness Week. A narrow 51.3% of those polled had a favorable impression of the program, while 48.7% had unkind thoughts for the week apparently unwilling to become aware of alcohol.
